Dear Brother:

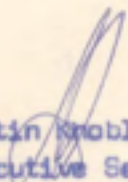

We are working with refugees from Latinamerica and Southeast Asia since 1973. Due to the hard work of three local churches that accepted the challenge of their christian witness through their help towards the people in exile. This work is financially sponsored by the WCC and the UNHCR (see M. Seitzew).

Our help to people without a refugee status when they are really so, and also to some migrants of our neighbour countries brought us to the necessity to reformulate our program. We came to the conclusion that we must commit more to all migrant population affairs. In Argentina only the Catholic Commission for Migration (CCAM) is taking care of this population. But the program is small and it only exists in a few large cities and is unknown to most of the migrants themselves; now we will begin helping the CCAM to organize the "Migrants week" from 1-6 sept. 86.

Therefore we are asking you to help us in the new task we want to afford if possible giving us the following material:

1. theological material to sponsor the work
2. your opinion/contribution for this work (is money available ?)
3. a set of the magazine Migrantes (in spanish)
4. if available, "affiches" or other printed material
5. experiences in other Latinamerican countries (also connection with other agencies)

Thank you for your help. Sincerely yours,

Martin Knoblauch
Executive Secretary
