

Dear CAREF Friends,

Back in Geneva I remember my brief but both useful and enjoyable stay in Buenos Aires. I have had opportunity to report to Jean Fischer, particularly the fact that all churches continue to recommend the work of CAREF albeit in a reduced volume.

The streets of Geneva are covered with snow, my desk is covered with papers. I am struggling to get at least the bulk of it out of the way before

I go home to Austria for Christmas. The rest of my travel through Latin America went smoothly but by the time I reached Dallas I really needed a rest. Seeing the children was wonderful and we had lots of fun together.

Thank you all for your professional help and personal friendships. Keep well, rejoice in coming Christmas and look forward to a very happy New Year. Yours Mercedes
